

Fire safety duties of the residents of the Student Dormitory

The residents of the Student Dormitory are to comply with fire safety regulations resulting from generally binding laws, regulations, standards and fire safety instructions and orders of the authorities of the Poznań University of Life Sciences.

In particular, it is forbidden to:

- interfere with fire protection system components (e.g. covering fire detectors, damaging the housing of manual call points and smoke venting system buttons),
- damage portable fire fighting equipment (fire extinguishers, hydrants) and use it for purposes not related to fire protection,
- block a fire door separating staircases in such a way that it cannot be closed,
- make self-repairs of electrical installation in rooms and use electric heaters,
- park cars on fire lanes,
- smoke tobacco in the SD.

The SD resident is obliged to leave the key at the SD reception when leaving the building!

In the event of an evacuation drill, fire or another local threat in the building (e.g. spraying of toxic substances, information on explosive devices), the SD residents are obliged to leave the building immediately and obey the instructions of the person in charge of the rescue and fire fighting operation as well as the functionaries acting on behalf of the ASD.

With the approval of the Occupational Health and Safety and Fire Protection Inspectorate

I hereby undertake to comply strictly with the above regulations
